CCSS 3.OA.D.9 · **EE** M.EE.3.OA.8 · **CRA:** Concrete → Pictorial · **Flow:** Standard (2 new routine steps)

Lesson guidance:

Tip: Read across. Read a row across, In then Out. Never down the Out column.

Tip: Say the rule. Pupils write a sign and a number. They SAY "add 3" or "times 2".

Watch: One row is not enough. 2 → 4 fits + 2 and × 2. Test every row, aloud.

What students need to know:

#	Skill or Concept	Atom Type	Teacher Notes
1	Add facts to 20	Fact · Pre-requisite	Find a change fast. Prerequisite Check a–d.
2	Subtract facts to 20	Fact · Pre-requisite	Prerequisite Check e–h.
3	×2, ×3, ×5, ×10 facts	Fact · Pre-requisite	Prerequisite Check i–l.
4	**In and Out:** each row is a pair	Category	Read across, not down.
5	Bigger or smaller	Comparative	Out bigger: + or ×. Out smaller: −.
6	**Test every row**	**Conceptual**	**Critical Atom. A rule from one row may be wrong (2 → 4).**
7	+ or ×	Comparative	+ fails on row 2? Try ×.
8	An Out of 0	Category	In = the number taken away: Out is 0. Test that row too.

What students do:

Step	Task / Routine atom	Tag	Check it with
1	Read rows 1 and 2 across.	New	"Point to In. Point to Out."
2	Find the change: bigger or smaller, by how much.	Pre-requisite	Prerequisite Check: add and subtract
3	**Test the rule on every row.**	**New**	**Check Question; exit slip c**
4	Write the sign in the circle, the number in the box.	Pre-requisite	Guided cell 2

Rows tagged New: 2 → Flow: Standard. One chunk: + rules, then − rules, then × rules; test every row.

How to teach:

Feed cards through the rule machine first. Model + (the change is plain), then −, then a × table where "+ the change" fails on row 2: the failure is the lesson. Say the test aloud on every row.

Board: The In / Out table 9 → 18, 19 → 38, 23 → 46. Write "Wrong" beside + 9.

Common mistakes:

Mistake	Step	Looks like	Fix	Caught by
One pair only	3	+ 4 for 2 → 6, 6 → 18, 7 → 21	Test row 2 aloud.	Check Question A
Down the Out column	1	+ 12 for 2 → 6, 6 → 18, 7 → 21	Reading strip: one row across.	Check Question B
Sign flipped	2	+ 8 for 34 → 26, 45 → 37, 48 → 40	"Bigger or smaller?"	Exit b · Practice 1 and 2 − tables

Accepted answers:

- The sign written + or "add"; × written x.
- One-step rules only: "+ 2 then …" is not the answer.
- Said aloud: "add 3", "plus 3" and "3 more" are all right.
- The number in the box with no sign in the circle: not yet right; ask "add or take away?".
- A right rule with no rows tested: right; ask the pupil to test it aloud.
